

Environmental Policy

Muang Mai Guthrie Public Company Limited is a corporate entity engaged in the production of natural rubber products for domestic and international sales. We are committed to systematically operate the environmental tasks and adhere to environmental laws and requirements. We have implemented the environmental management system ISO 14001 as the basis for our operations in order to maintain and improve environment continuously. The high level executives and all employees are participating in the following practices:

1. Comply strictly with the laws, rules and regulations relating with the control and protection of the environment that concerns with the company's operations.
2. Effectively and efficiently provide protection, risk assessment, reduction of pollution and environmental impact by reducing waste and reuse.
3. Set clear objectives and targets to significantly reduce environmental impacts such as water and air qualities as well as to reduce the use of energy, water, electric power and resources. Regularly review various work plans concerning within environment for continuous development and improvement.
4. Provide knowledge and training, raise awareness and promote participation in energy and environmental conservation to all level of employees and all related parties. Provide communication and public relations for their awareness.
